

Children's little helper

Lyrics by Peter C Gøtzsche, 30 Nov 2022

After "[Mother's little helper](#)" by the Rolling Stones 1966

Am C D Em
What a drag it is getting drugged
Em F D
"Kids are different today," I hear every mother say

They all need something today to calm them down
G C Em7 Am
And though they're not really ill, there's a little yellow pill
Am D7
She goes running for the shelter of her children's little helper
Em
And it helps them sitting still, while their minds are drugged away

"Things are different today," I hear every mother say
And my kids are just too hard to teach at school
They were sent down to a shrink, and he wrote them a receipt
She goes running for the shelter of her children's little helper
And it helps them sitting still, while their minds are drugged away
Em C D
Doctor, please, some more of these
G C
Amphetamine and Ritalin
What a drag it is getting kids

"Children aren't the same today," I hear every mother say
They just don't appreciate that you get tired
They're so hard to satisfy, you can tranquilize their mind
She goes running for the shelter of her children's little helper
And they now get many drugs, which is very dangerous

My boy at five, is not alive
Outside the door, fell to the floor
What a hell it is getting drugged

"Life's just much too hard today," I hear every mother say
The pursuit of happiness just seems a bore
And he took too much of those, and he got an overdose
No more running for the shelter of her children's little helper
They just killed my little boy, as they killed so many more

D D G G C C C G G

Hey
